

## Pig Pen Divider

Deba Brothers® is a professional China Pig Pen Divider manufacturers and suppliers. More and more countries are starting to focus more on animal welfare. Now this is the best choice to improve animal welfare in the stall. We also want to help the farmer to create a bigger space for sow and separate sow when they eating. So we develop feeder driver stall.

## Product Description

Deba Brothers® is a manufacturer of pig pen dividers and has its own factory. The pig pen divider provide more space for sows, the head of the sow can be restricted only when the sow is eating, so that other sows will not disturb them. The pig pen divider animal friendly management and feeding system that offers great freedom of movement due to large groups.

### Pig Pen Divider Specifications

Material	Galvanized
Usage	gestation

### Pig Pen Divider Advantage

- 1.Sows can walk out of the limit bar and move to the event site freely after eating.
- 2.The large activity area is beneficial to the healthy growth of sows.
- 3.Galvanized foot plate, anti-corrosion and anti-rust, strong and firm.
- 4.Sows are separated from each other when they eat food and do not interfere with feeding between sows.
- 5.Sows can walk freely in this stall and have more space to walk, but can be separated from the other sows when eating, to prevent mutual competition, the feeder divider stall cost is much cheaper then gestation stall.
